California Copy Certification of Power of Attorney

California law allows Notaries to certify copies of powers of attorney under section 4307 of the California Probate Code.

If no other notarial wording is prescribed, this certificate may be used to certify such copies.

The NNA recommends that Notaries make, or supervise the making of, the copy. If the signer presents both the original document and a copy, no less than a line-by-line comparison is required for the Notary to certify the copy.

Unlike other notarial certificates which are typically stapled to the last page

of a notarized document, this certificate should be stapled to the front page of the copy as a cover sheet.

IMPORTANT NOTE: With the exception of copies of journal entries certified at the request of the Secretary of State, California Notaries do not have statutory authority to certify copies of any other type of document.

The optional section at the bottom can deter alteration of the document of fraudulent reattachment of this form to an unintended document. The insections of this section are not required by law. Failure to fill out this section will not affect the validity of the certificate.
